RECEIVED
USDA NATIONAL
ORGANIC PROGRAM

2005 MAY 23 P 4: 11

Dear NOSB Members:

We, the undersigned consumers, support the NOSB's draft guidance document regarding pasture requirements for the National Organic Program. We request that the NOSB approve the draft pasture guidance document as written including: "Ruminant livestock shall graze pasture during the months of the year when pasture can provide edible forage. The Organic System Plan shall have the goal of providing grazed feed greater than 30% dry matter intake on a daily basis during the growing season but not less than 120 days. The Organic System Plan shall include a timeline showing how the producer will satisfy the goal to maximize the pasture component of total feed used in the farm system."

The standards for organic farms and food marketed under the USDA organic seal must not be compromised.
